

Dear Senator Collins —

I want to congratulate you on receiving  
This year's Edwin Whitehead award for Medical  
Research Advocacy. Research! America could  
not have picked a more worthy individual.  
You are a great friend to science and  
and to the research community.

Thank you for your continued advocacy  
on our behalf and on the behalf of  
patients + families who benefit from your  
hard work. My best. Ed Lin
